# FRIEND OF THE WORLD

SCI-FI, HORROR, COMEDY 50 MIN

After a catastrophic global war, a young filmmaker awakens in the carnage and seeks refuge in the only other survivor: an eccentric ideologically opposed figure of the United States military. Together, they brave the toxic landscape in search of safety, and answers.

Inspired by the works of John Carpenter and David Cronenberg, FRIEND OF THE WORLD is a sci-fi thriller for lovers of dark comedy, body horror & absurdism.

The story was influenced by then-current worldwide anxieties when it was written in 2016. With a growing relevance to current events, the film retains its universal qualities about how "good" and "evil" are viewed in different ideologies, delivering a wider message about personal growth and corruption.

Audiences will appreciate the exaggerated situation and comic tragedy as it is an entertaining peer into a bleaker, yet introspective parallel reality to our current times.

## WATCH THE TRAILER

FRIEND OF THE WORLD is a feature film by writer/director BRIAN PATRICK BUTLER (HATRED), executive producer KERRY ROSSALL (APOCALYPSE NOW) and cinematographer RAY GALLARDO (AT THE FRONTERA)
